Thank you from the Focus Ireland team, your money will be put to good use.

Dear Friends,

Your fundraising makes a big difference

I'd like to extend a huge thank you to you all for your contribution of € 150.00 towards our work, collected by you.

Focus Ireland work throughout Ireland

Focus Ireland work to prevent and break the cycle of homelessness through early intervention. We do this by:

- Offering extensive information and advice
- Working on a one- to-one basis with people to assess their needs and give practical advice
- Supplying support services as needed, such as psychotherapy, childcare, education and training, practical skills and addiction referrals
- Providing people with a place to call home

A combination of these services gives a better chance of success to all those who engage with us to take the next steps in their lives.

Homelessness can happen to anyone

Focus Ireland work around Ireland with a broad spectrum of people - single men and women; families with children and young people who have grown up in State care. We take particular care to support children in crisis situations and work closely with families who are homeless or at risk of becoming homeless. We work with people who are sleeping rough, building trust and helping them to get secure accommodation.

We will use your donation wisely

89 cent of every euro we receive is spent on our services. This is our promise to you - we will make sure that we use your contribution wisely to help prevent homelessness in the long term and support those who are homeless now.

Yours sincerely,

Elizabeth Smyth
